Errors on returns delay processing, and hold up any refund that may be due.

Be sure to sign the return, include your social security number, and attach all W-2 statements.

You should use the tax forms you received by mail to avoid social security number errors. The packages have pre-addressed labels that show the taxpayer's name, social security number and address, just as they appear in IRS files.

You can lift the label off the tax forms package and place it on the tax return that you file.
